

STAAR Spring 2024 Grade 5 Math Appendix

1.1

Which rectangular prisms have a volume of 24 cubic centimeters?

Select **TWO** correct answers.

1.2

1.3

The table shows how many miles Easton rode his bike last week.

Distance Biked

Day	Number of Miles
Monday	$\frac{1}{4}$
Tuesday	$\frac{1}{2}$
Wednesday	$\frac{1}{4}$
Thursday	$\frac{1}{2}$
Friday	$\frac{1}{4}$
Saturday	$\frac{1}{2}$
Sunday	$\frac{1}{4}$

How many total miles did Easton ride his bike last week?

A model is shaded to represent an expression.

The image shows a math problem interface. At the top, there are two horizontal rows of four squares each. The first three squares in each row are shaded gray, and the fourth square is white. Below this, there is a larger grid with 2 rows and 4 columns. The first three columns of the first row are shaded gray, and the fourth column is white. To the right of this grid is the text "= 1". Below the grid, there is a calculator interface with buttons for numbers 2, 3, 5, 6, and operations like multiplication (x), division (÷), and subtraction (-).

1.9

The values in the table represent the equation $y = 6x$. Complete the table to represent the relationship between the

at all answers will be used. Move the correct answer to each box in the table. No

x	y
6	36
20	120

The interface also shows a number line with numbers 1, 10, 17, 75, 12, 15, 122 and a calculator interface with buttons for numbers 12 and 77.
