The Student Achievement domain evaluates district and campus performance based on student achievement in three areas: performance on STAAR assessments, College, Career, and Military Readiness (CCMR) indicators, and graduation rates.

The STAAR component of the Student Achievement domain calculation uses a methodology in which scores are calculated based on students' level of performance at Approaches Grade Level or above, Meets Grade Level or above, and Masters Grade Level standards.

The Student Achievement domain evaluates STAAR (with and without accommodations) and STAAR Alternate 2 assessment results for grades 3

*Expect a list of courses to be developed and adopted during the 2018–19 academic year.

Alternative procedures applicable to the graduation rate and annual dropout rate calculations are provided for approved campuses and charter schools serving at-risk students in alternative education programs. For more information on the alternative education accountability (AEA) eligibility criteria, please see "Chapter 7—Other Accountability System Processes."

The graduation rate calculation is modified to credit AEA campuses and charter schools for graduates, continuing students (continuers), and TxCHSE recipients. The grade 9–12 annual dropout rate is used if no combined graduation, continuer, and TxCHSE rate is available.

$$\frac{\text{Number of Graduates + Continuers + TxCHSE Recipients in the Class}}{\text{Number of Students in the Class (Graduates + Continuers + TxCHSE Recipients + Dropouts)}}$$

- Class of 2017 four-year graduation, continuer, and TxCHSE rates are calculated for AEA campuses and charter schools if they: (a) served grade 9, as well as grade 11 or 12, in the first and fifth years of the cohort or (b) served grade 12 in the first and fifth years of the cohort.
